

BEGIN THE JOURNEY INTO **DIGITAL TRANSFORMATION.**

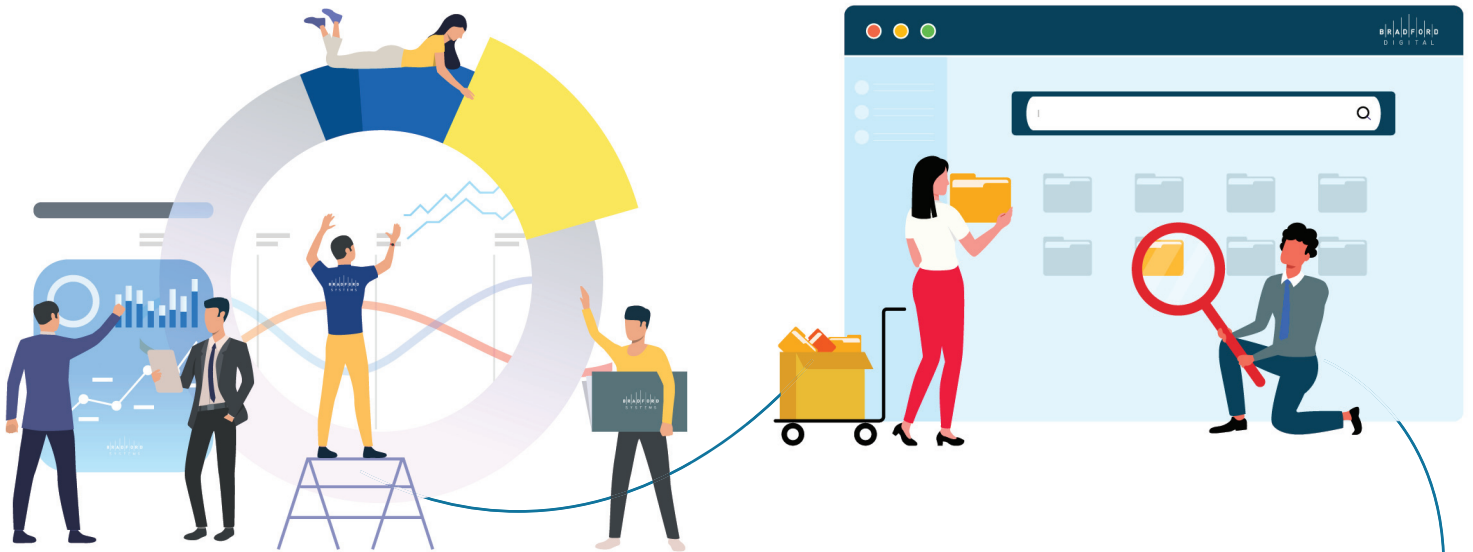

We have helped clients in a wide range of industries over our 40+ year history, and **more than 90% of our clients entrust us to continue their digital transformation journey** after our initial digitization project. Digital transformations for business almost always **start with document imaging and digitization**, but that's just the tip of the iceberg. Once your files have been properly digitized, you'll find there are many steps left to becoming **a digitally-fluent organization — that's where Bradford Digital excels above the rest.**

We recognize there's a lot more to digitizing paper than just feeding it through a scanner. That's why we put so much effort into being **entirely transparent and dependable from the first time we meet.** No hidden agenda, no surprise costs, no lies; just a team of vetted, trustworthy, expert individuals focusing on the success of your digitization.

We have been honored to work on **multiple projects with major universities, hospitals, and financial & legal sector organizations** that have made us experts in digitization services and security-sensitive digital transformations.

THE QUINTESSENTIAL **PAPERLESS OFFICE.**

In our experience providing unique digitization services for our clients, **we've mastered the move to a fully paperless office.** Digital transformations can and will vary between companies, industries, and even individual departments.

What's most important is having a **team of actionable and dependable people** that know what the entire digitization process is like and how to alleviate the most common concerns. A team that can be relied on for the following digitization suite services:

- Document Scanning & Imaging**
- Retention & Destruction Schedules**
- Compliance Standards Per Industry**
- Document Management**
- Information Governance**
- Records Relocation Services**
- Business Process Outsourcing & more**
